

CHRIS CHRISTIE
Governor

KIM GUADAGNO
Lt. Governor

KIMBERLEY HARRINGTON

Commissioner

December 6, 2017

TO: Members, State Board of Education

FROM: Jeffrey B. Hauger, Ed.D., Director

Division of Talent and Performance, Office of Assessment

SUBJECT: Feedback from the Science Advisory Committees on the Grade Four to Grade Five

Transition

Below are the comments and concerns made by the Science Advisory Committee from our meetings on November 14 - 16, 2017. The three (3) committees met separately (Elementary on 11/14, Middle School on 11/15, and High School on 11/16) and all unanimously support the change from assessing students at grade four to administering the assessment at grade five.

Comments:

- Good! Fourth graders are not mature enough to handle comprehensive testing; already testing in two (2) different subjects
- Aligns better with the current standards (K-5) as they loop though the grades (more concepts are finished)
- Grade 5 students are more technology savvy
- Many elementary school teachers are not versed in science and this could allow for a higher quality of education rather than just preparing for a test
- Grade 5 data may provide more substantial use
- Move from 4 to 5 makes sense as it is the end of Elementary School
- Teachers will have more time to prepare students to take the test if it is moved to grade 5
- More science is taught in grades 3 and 4 compared to K-2 so students will be better prepared by grade 5
- Grade 5 is a better fit cognitively
- Grade 5 standards "glues" to Middle School standards

Concerns:

 Some schools are Grade 5 through Grade 8 and students attending those buildings would be assessed twice while there.

- Districts would have to handle the update of student IEP's
- Third Grade material retention could be an issue
- May be push back from parents against the move of test from one grade to another, but could be symptomatic of general pushback against testing
- Gaps in continuity will only be shifted

Below is a list of the committee members and the districts they represent:
